Site Map

Master Page

Purpose

The master page's purpose is to provide navigation throughout the website. Additionally the page aids the user in consistently understanding that they are on the same website as they navigate from page to page.

Data Collected

None

Data Displayed:

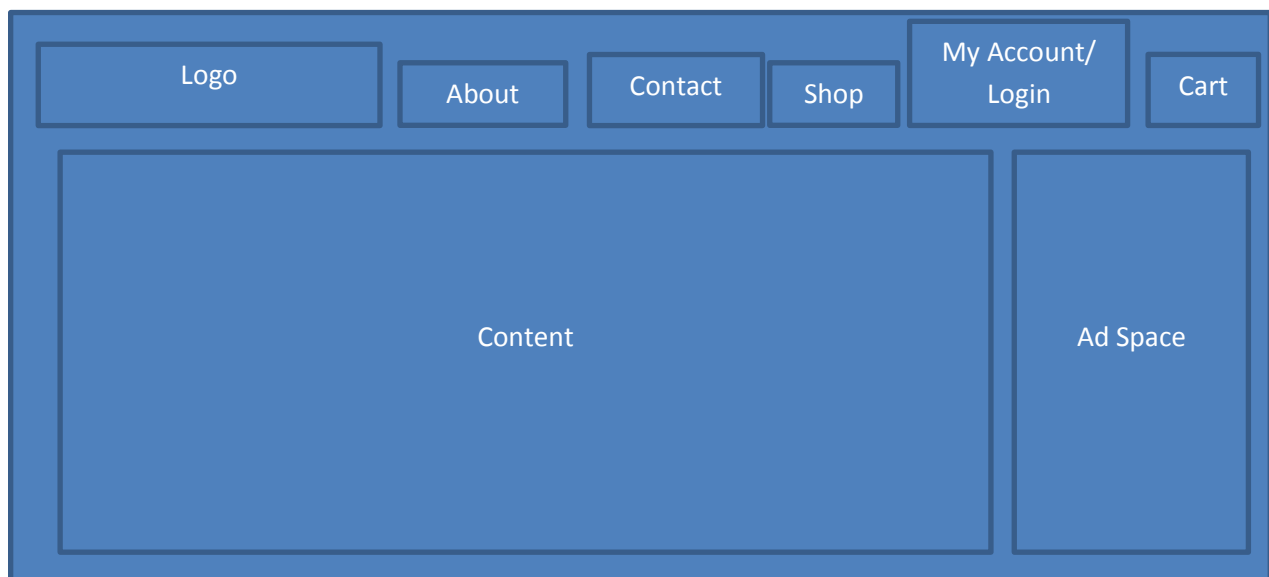

The company logo

Navigation

- Home / Logo
- My Account / Login
- About
- Contact
- Shop
- Cart

My Account will be displayed if the user is logged in, Login will appear if the user has not logged in. Home is used interchangeably with "Default.aspx" and is the hypertext reference location on click of the logo.

Page Design

Default

Purpose

This is the default landing page of customers when they visit the Team Net folder. This is the face of the website.

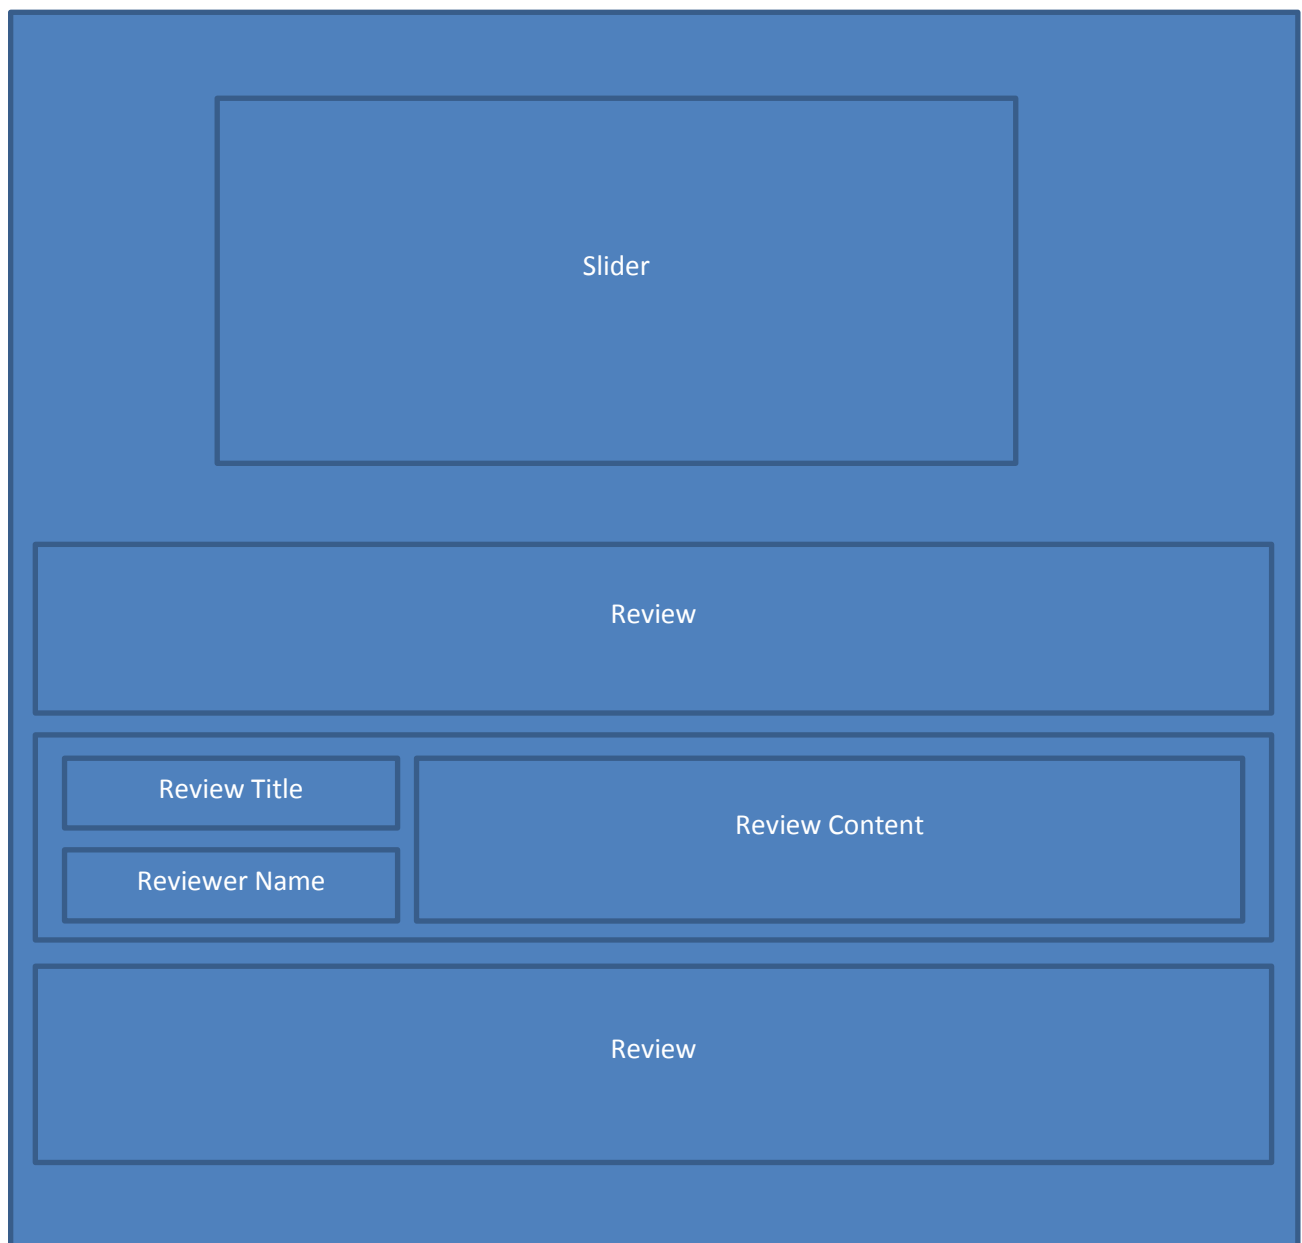

Data Collected

No data collected.

Data Displayed

Here will be displayed featured items and sales. These will be displayed in the form of a slider. Below this slider will be a series of three reviews of Case Relief's services their names, title of reviews, and reviews themselves will be displayed.

Design

Shop

Purpose

This is the page where the customer's shopping experience will take place. The user will have the ability to add products into their cart for ordering from this page as well as simply browse items. On click of the photo or the name of a product, a modal window will appear and offer more details to the customer.

Confirm Shipping and Billing Information

Purpose

Here, the customer will provide their shipping and billing information. If they have an account and are logged in, their information will automatically populate the boxes for shipping and they will only need to fill in billing information. If they are not logged in, they will be directed to either login, Register, or fill out the information manually.

Information Collected

Customer billing / shipping

- Address
- Zip
- State
- Preferred billing method
- City
- Whether billing address is the same as shipping address

Design

Customer Name	Purchased item 1 quantity, item, and price
Customer Email	Purchased item 2 quantity, item, and price
Customer address, zip, state	Purchased item 3 quantity, item, and price
Customer payment type	
Thank you message	

About

Purpose

This page will inform customers of what Case Relief is as a company. It will inform the customer of the cause it supports.

Data Collected

No data is collected.

Data Displayed

No stored data is displayed.

Design

Content

Login

Purpose

The login page authenticates the user and allows their information to be stored for later purchases. It assists the user in filling out the form when making a purchase.

Data Collected

User Email

User Password

Data Displayed

No data is displayed.

Design

The diagram illustrates the design of a login form. It consists of a large blue rectangular background. Centered on the left side of this background is a white rectangular box with a dark blue border. Inside this white box, there are two white rectangular input fields, each with a dark blue border. The top input field is labeled "Email" and the bottom one is labeled "Password".

Registration

Purpose

The registration page allows the information used in the purchasing process to be stored by Case Relief.

Data Collected

- First Name
- Last Name
- Email
- State
- Zip
- Address
- City

Data Displayed

No data is displayed.

Design

The design shows a registration form with a blue background. The form is organized into two columns. The left column contains five input fields stacked vertically: First Name, Last Name, Email, State, and City. The right column contains two input fields stacked vertically: Zip and Address. All input fields are represented by blue rectangles with white text labels.

First Name	Zip
Last Name	Address
Email	
State	
City	

Contact

Purpose

This is the page where customers or anyone else can make contact with Case Relief.

Data Collected

User inquiry

User email

Data Displayed

No data is displayed

Design

The diagram illustrates a contact form layout. It consists of a main blue rectangular area. Within this area, there is a smaller rectangle labeled "Email" positioned at the top. Directly below the "Email" rectangle is a larger rectangle labeled "Input". In the bottom right corner of the main blue area, there is a small rectangle labeled "Submit".
